

Priya Sharma

Senior Backend Engineer | priya.sharma@example.com | +91 98765 43210

SUMMARY

Backend engineer with 6 years of experience building high-throughput payment systems in Node.js and TypeScript. Owned the payments platform at FinPay handling 40,000 transactions per day.

EXPERIENCE

Senior Backend Engineer, FinPay (2021 - Present)

- Owned the payments service processing 40,000 transactions per day at 99.98 percent uptime.
- Migrated a single-table ledger to a double-entry design with zero downtime.
- Reduced p95 checkout latency from 2.1s to 180ms by eliminating an N+1 query.
- Set up the on-call rotation and wrote the incident runbooks for a team of 6.

Backend Engineer, ShopStack (2019 - 2021)

- Built internal tooling in Node.js and PostgreSQL.
- Implemented an event-driven inventory sync using RabbitMQ.

PROJECTS

- LedgerCore - a double-entry accounting library in TypeScript with property-based tests.
- QueryLens - a Postgres slow-query analyser that suggests missing indexes.

SKILLS

Node.js, TypeScript, PostgreSQL, Redis, RabbitMQ, Docker, REST APIs, System Design

EDUCATION

B.Tech Computer Science, NIT Patna, 2019
